PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in designing and developing full-stack web applications using **Java, Spring Boot, ReactJS, REST APIs, and MySQL**. Skilled in building scalable backend services, developing responsive user interfaces, and integrating frontend and backend systems. Proficient in Git, Docker, Agile methodologies, and software development best practices.

PROFESSIONAL EXPERIENCE

Software Engineer

ParamTech Engineering Services Private Limited

01/2026 – 03/2026
Bangalore

- Contributed to the development of a scalable **Advertising Marketplace Platform (AMP)**, enabling buyers and sellers to manage advertising inventory, campaigns, and booking workflows through role-based dashboards.
- Developed responsive UI components using **React.js** and **Redux**, improving application performance and reducing unnecessary API calls, while collaborating in an **Agile** environment to deliver feature enhancements and bug fixes.

Junior Software Engineer

PeopleTech Technology Pvt. Ltd

09/2024 – 11/2025
Hyderabad

- Developed a full-stack **Test Bench Management Platform** using **React.js, Spring Boot, and MySQL** to streamline test bench booking, scheduling, and resource management.
- Designed responsive user interfaces with **React.js** and **Material UI**, and built **RESTful APIs** for booking management, resource tracking, and real-time data retrieval.
- Optimized application performance using **Redux Toolkit** and **Axios**, while leveraging **Git, Docker, and Agile methodologies** for collaborative development and deployment.

PROJECTS

Hospital Management System

- Developed a full-stack Hospital Management System using **Spring Boot, React.js, MySQL, and JWT Authentication**.
- Implemented role-based access control for Admin, Doctor, and Receptionist using **Spring Security**.
- Built RESTful APIs and CRUD modules for Doctor, Patient, Appointment, Diagnosis, and Discharge management.
- Designed a responsive React dashboard with real-time data integration and secure authentication.

Student Management System

- Developed a Student Management System using **Spring Boot, React.js, and MySQL** to manage student records and academic information efficiently.
- Implemented CRUD operations with RESTful APIs following the **MVC architecture (Controller, Service, Repository)** and integrated MySQL using **Spring Data JPA and Hibernate**.
- Built a responsive frontend with React.js and Bootstrap, ensuring seamless frontend-backend communication and efficient data management.

SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Material UI, Bootstrap

Backend Technologies: Java, Java 8 Features, Collections, Exception Handling, Multithreading, RESTful APIs

Frameworks: Spring Boot

Database: MySQL

Tools & Platforms: Git, Github, Docker, Postman, VS Code, Eclipse, Maven

EDUCATION

BTech

Sri Venkateswara College Of Engineering

CGPA: 8.1

08/2020 – 05/2024
Kadapa
